Vote By Mail for Secure Elections in 2020 — and Beyond

A Step-by-Step Guide for Georgia

In-depth materials and guidelines for local election administrators, secretaries of states, legislators, and advocates to help Georgia handle more mailed-out ballots.

Voting in Georgia

Georgia has nearly 7 million registered voters in its 159 counties, ranging from 1,250 in Taliaferro County to 770,000 in Fulton County. In the 2018 election, less than 6 percent of Georgians voted absentee, though nearly 50 percent voted early in person. Of that election's 16,911 poll workers, 58 percent were age 60 or older—an age group at a higher risk for severe illness from COVID-19.

Secretary of State Brad Raffensperger rescheduled the presidential primary for June 9 (nearly three months after its originally planned date) and mailed absentee application forms to all active voters. As of June 8, nearly 1 million voters had mailed in their ballots. That represented a more than 20-fold increase in usual Vote By Mail rates, but it wasn't enough to prevent hours-long waits in lines at many polling places on Election Day.

Grades based on 15 factors covering

- Ease of access
- Ballot security
- Election infrastructure
- Administrative efficiency

Georgia's grade for Vote By Mail preparedness

Ways in which Georgia is already prepared

- Allows early in-person voting starting four weeks before Election Day.
- Has an official notice and cure process (up until Election Day).
- Allows any voter to request an absentee ballot.
- Is a member of the Electronic Registration Information Center (ERIC).
- Uses voters' signatures to verify ballots.
- Allows county clerks to start processing ballots upon receipt.
- Allows voters to register online.
- Automatically registers voters and updates their address.

Who We Are

Sightline is a nonpartisan nonprofit think tank with a 25-year history. We are based in the Pacific Northwest, where many states already conduct all-mail elections. We are grateful for feedback and research from many policy experts, elections officials, and leaders committed to safe, secure democracy, particularly the National Conference of State Legislators and the [National Vote at Home Institute](#).

The Moment

American election officials face an urgent challenge to secure the 2020 elections. As poll workers and voters grapple with the coronavirus pandemic, many jurisdictions are already unable to find enough workers to run their usual polling places, and many Americans are seeking to cast their ballot from home, rather than risk contagion in a crowded polling place in November.

About This Resource

We hope that Georgia election officials, advocates, and legislators will find this resource useful as they work to handle more Vote By Mail ballots in 2020 and beyond.

Local election officials and **secretaries of state** will find in-depth information including practical nuts-and-bolts advice, materials and guidelines from election administrators with experience in conducting all-mail elections, and information about vendors and costs.

Legislators will find tried-and-tested policies, along with sample language from states that have successfully implemented those policies. Even if Georgia lawmakers don't act in time for November 2020, the experience of hastily trying to secure elections this year may create a greater political appetite for reforms to strengthen democracy in Georgia beyond 2020.

Table of Contents

For Local Election Officials	1
1. Coordinate with USPS.	1
2. Design ballots and envelopes that are easy to use.	2
3. Implement robust signature verification.	4
4. Provide secure drop boxes.	7
5. Provide Election Day voting centers for in-person voting.	9
6. Consider using a professional printer and ballot sorter.	10
7. Count ballots at a secure centralized facility.	11
8. Include a postage-prepaid return envelope.	12
For Secretaries of State	14
9. Use a comprehensive system to track ballots.	14
10. Mail absentee applications to every registered voter.	16
For Lawmakers	18
11. Account for voters with non-traditional addresses.	18
12. Give voters a "single sign-up" option.	19
13. Allow counties to accept ballots postmarked by Election Day.	22
14. Allow voters to request absentee ballots online.	24
15. Allow community organizations to collect and deliver sealed ballots.	25

For Local Election Officials

1. Coordinate with USPS®.

To ensure that the United States Postal Service (USPS) is able to process ballots in a timely manner, election administrators can [contact the local USPS](#) election mail coordinator to discuss the design, timing and volume of election materials. The USPS can review all materials to ensure the design, wording, and colors meet their guidelines, and sign off on the printer's proofs. Election administrators can also discuss the date, time, and location for delivery of ballots to the Post Office, to ensure the Post Office is prepared. For example, King County, Washington, election administrators send a letter alerting USPS to the number, type, and timing of ballots they expect to deliver each election.

USPS may also be able to help election administrators access the National Change of Address Linkage (NCOA) to update voters' addresses. Georgia is already a member of the Electronic Registration Information Center (ERIC) which uses NCOA data to help Georgia keep voter lists up-to-date. However, voters may have moved since the last state update and local officials can access the latest address information for their voters. Having the most up-to-date addresses will ensure each ballot reaches the right voter, reducing the costs of re-mailing ballots.

2. Design ballots and envelopes that are easy to use.

Well-designed envelopes, ballots, forms, and instructions help voters fill out their ballots and return them without mistakes, decreasing processing time and minimizing the chance that ballots will be flagged, thrown out, or not counted. In contrast, poorly designed instructions or ballots can cause voters to fill out their ballot incorrectly or incompletely so that their vote is not counted.¹¹

Ensure election materials are easy so that voters who may be voting by mail for the first time don't make mistakes. For example, first-time absentee voters may not know they need to sign the outside of their envelope, so putting their name under the signature line and simple clear instructions can help prompt them and reduce the number of ballots that you need to spend extra time processing. Also, pre-filling the absentee application form can help voters complete it correctly (See Recommendation 10).

Color-coded envelopes can help the USPS sort the mail quickly and accurately, and including space for voters' contact information can help election officials reach voters promptly in the event of a missing or mismatched signature. Experienced election officials and design experts have developed guidelines and templates for election materials, as described in the resources below.

Another important way to assist voters is to design and distribute voter education booklets to help guide voters through the process. For example, Anchorage, Alaska moved to All Vote By Mail in 2018. In addition to a robust [community education campaign](#), the city

3. Implement robust signature verification.

Georgia election officials already have experience verifying signatures to protect against fraud while also avoiding mistaken voter disenfranchisement.²⁶ As your county handles more ballots by mail due to COVID-19, here are steps you may take to implement efficient and effective signature verification.

¹⁹ <http://lawfilesexternal.wa.gov/biennium/2019-20/Pdf/Bills/Session%20Laws/House/1520-S.SL.pdf>

²⁰ <https://app.leg.wa.gov/RCW/default.aspx?cite=29A.36>

²⁵ https://sos.oregon.gov/elections/documents/vbm_manual.pdf#page=23

²⁶ To verify the identity of voters who can't sign due to disability, you can give the option to fill out a form enabling them to use a signature stamp.

First, digitize the voter signatures you have on file. The more signatures you can digitize, the more accurate the verification can be.²⁷ You can use signatures from each voter's registration, their absentee ballot request form, prior mailed ballots, and also their signatures from the DMV or other state agencies.

Second, train enough workers to inspect signatures. You can model your training program on procedures developed in Washington, Oregon, and Colorado (See Resources). Forensic scientists, possibly from yours or a neighboring state's patrol, may be able to help train your workers.

Third, implement a two-stage signature review. In the first stage, trained workers or specialized equipment compares the signature on the envelope to the digitized signatures on file. If the signatures match, the ballot is moved to an "accepted" pile, but if there is a discrepancy it is moved to a "flagged for further review" pile. In King County, Washington, trained inspectors flag around 2.5 percent of ballots during this initial review. Flagged ballots then go to another team of trained workers who closely examine the ballots and decide whether to accept or challenge them. King County inspectors challenge about 1 percent of signatures.

Finally, for all challenged signatures, notify voters and give them an opportunity to respond so that their ballot can still be counted.

⁴⁰ https://sos.oregon.gov/elections/documents/vbm_manual.pdf#page=35 and https://sos.oregon.gov/elections/documents/vbm_manual.pdf#page=83

4. Provide secure drop boxes.

In states that mail out all ballots, most voters return them to secure drop boxes, rather than via the USPS. To accommodate this, counties should provide enough drop boxes to make them easily accessible to all voters. Each county should have at least one box that is available 24/7; more populous counties should aim to have one drop box per 10,000 voters. Drop boxes are especially important if Georgia continues to require receipt of ballots by election day. Voters looking to turn their ballot in on election day can drop it at a drop box instead of dropping it in a mailbox and risking it missing the deadline (See Recommendation 12).

Many jurisdictions site some drop boxes inside government buildings. However, boxes available 24/7 are more frequently used than those inside buildings and only open during business hours. Outside drop boxes need to be in well-lit areas covered by security cameras. Boxes should also be secure, only allowing election officials to access ballots.

In 2018, Oregon and Washington,⁴¹ two states that mail out all ballots, had one drop box per 8,800⁴² and 10,000⁴³ voters, respectively. King County, Washington strategically sited its drop boxes to ensure that 95% of voters lived within [3 miles of a box](#). Election administrators should place drop boxes approximately one month before elections and publicize locations on their website and in local news outlets.

Election officials should be prepared for voters to drop off ballots in precincts and jurisdictions other than their own.

Cost/Savings:

- Drop boxes used in King County, Washington cost \$5,235 each and installation cost around \$20,000 to install a total of 37 drop boxes.⁴⁴
- In Pierce County, Washington each drop box cost between \$7,000 and \$10,000 to purchase and install.

41

https://www.sos.wa.gov/_assets/elections/ballot%20drop%20boxes%202019%20general%20election.pdf;
<https://www.sos.wa.gov/elections/general-election-2019.aspx>

⁴² In 2018, Oregon had 311 drop boxes (one per 8,800 voters) with 165 of those boxes available 24/7.

⁴³ In 2018, Washington had 471 drop box (one per 10,000 voters) with 323 of those boxes available 24/7.
https://www.sos.wa.gov/_assets/elections/ballot%20drop%20boxes%202019%20general%20election.pdf;

⁵³ https://sos.oregon.gov/elections/documents/vbm_manual.pdf#page=10

5. Provide Election Day voting centers for in-person voting.

Even if counties mail out all or most ballots, they should still provide in-person voting locations for those that prefer in-person voting, need additional assistance, or do not have a reliable mailing address. Each county should have at least one in-person center (it could be the county elections office), and more populous counties should aim to have one center per 30,000 voters. These locations will need an electronic poll book and the ability to print ballots on demand based on each voter's address.

Even states that conduct elections completely by mail still offer some in-person options. California mandates one voting center per 1,000 voters. In Oregon, voters can vote in-person at any county elections office. Though Colorado still opens voting centers on Election Day, the state was able to reduce the number of poll workers from 16,000 to fewer than 4,000⁵⁴ after implementing Vote By Mail.⁵⁵ The shift decreased labor cost per vote from \$4.71 to \$1.96.

According to the GAO, costs for polling sites can range from free (if using an existing agency facility) to \$300 per day to rent a location. Employee costs to staff a voting center can range from \$100-\$235 per day.

Resources:

- [VAH 2018](#) - Mail out ballot return options.⁵⁶
- King County, Washington guidance on Vote Centers.⁵⁷

Example Legislative Language:

Revised Codes Washington [29A.40.160](#). Voting centers.⁵⁸

Each county must have a voting center, open from 18 days before the election, which must be accessible for voters with disabilities.

- Washington Administrative Code [434-250-105](#). Voting Centers.⁵⁹
- Colorado [Elections Policy Manual](#), pg 35.⁶⁰
- Oregon [VBM Manual](#), pgs 10-15.⁶¹

6. Consider using a professional printer and ballot sorter.

Many counties use professional printers and ballot sorters rather than printing ballots and envelopes and sorting them in-house. The move can save money and increase staff efficiency. According to the Brennan Center, printing costs [21.4 to 35 cents per ballot](#). The volume efficiencies in moving to an all Vote By Mail system result in lower per-voter printing costs. In Colorado, per vote total printing costs decline from [\\$6.86 to \\$3.04 per voter](#) after implementing full Vote By Mail.

Resources:

- Many Northwest counties use [K&H Integrated Print Solutions](#) to securely print their ballots and envelopes.⁶²
- [Runbeck Election Services](#) has capacity to serve 10 percent of American voters.⁶³

⁶⁸ <https://tritektech.com/>

Example Guidance Language:

- Colorado [Elections Policy Manual](#), pg 26.⁶⁹
- Oregon [VBM Manual](#), pg 23.⁷⁰

7. Count ballots at a secure centralized facility.

Counting ballots in a secure, centralized facility enhances election security, transparency and efficiency. As noted in the resources section, election administrators in King County, Washington, count ballots in guarded facilities with continuous security camera monitoring, in addition to their ballot tracking system (See Recommendation 9). By setting up security surveillance equipment in ballot processing areas and streaming the footage online, voters can see for themselves how secure and transparent your vote counting procedures are. As with all election procedures, prepare for election day by rehearsing processes and timing various stages.

To the extent possible according to your state laws, counties that don't have an appropriate facility should coordinate with counties that do.

⁷³ <https://apps.leg.wa.gov/wac/default.aspx?cite=434-261-045>

⁷⁴ https://sos.oregon.gov/elections/documents/vbm_manual.pdf#page=8

8. Include a postage-prepaid return envelope.

Seventeen states require the government to prepay return postage for absentee ballots.⁷⁵ Twenty-two states leave it up to counties whether they will pay for return postage, either by explicitly giving counties the option or by saying nothing in legislation about who pays postage.⁷⁶ Pre-paying return postage makes voting easier and can improve turnout by mail because voters can focus on voting, not on locating stamps. Prepaid postage will cost around 80 cents per voter.⁷⁷

Georgia currently offers no guidance on who should pay for postage to return absentee ballots. The USPS in Georgia stated it would deliver ballots even without stamps for the June primary.⁷⁸ The postal service made a similar statement in 2018. In this case, USPS may charge counties directly for the delivery of unstamped ballots. It would be most effective for the legislature to require postage prepaid ballots statewide. In the absence of legislation, each local official could take initiative and provide prepaid postage on all ballot return envelopes. Some Democratic-leaning groups have filed a lawsuit challenging Georgia election laws and proposing postage paid ballots, and counting ballots postmarked election day, among other things.⁷⁹

Resources:

⁸² https://azsos.gov/sites/default/files/2019_ELECTIONS_PROCEDURES_MANUAL_APPROVED.pdf#page=68

For Secretaries of State

Clerks could independently implement each of these recommendations, but a coordinated statewide effort would be more effective.

9. Use a comprehensive system to track ballots.

Comprehensive ballot tracking improves the security of absentee ballots and boosts voter confidence in mailed-out ballots. The service, offered by companies like Ballot Scout⁸³ and BallotTrax⁸⁴, uses intelligent barcodes to track every ballot and envelope, minimizing the risk of stolen or tampered ballots. It also increases transparency and accountability because voters can easily track when their ballot is on its way, received by election officials, and counted.

Ten states [require](#) tracking for absentee ballots⁸⁵ and thirty other states have some form of ballot tracking, though it is not [required](#) by statute. These tracking services may not be comprehensive. For example, in many states, voters can look up whether their ballot has been mailed but may not be able to find out if it has been accepted. In contrast, Ballot Scout and Ballot Trax's comprehensive services can text voters about every step in their ballot's journey from being mailed, to arriving at their house, to being accepted. This gives voters a much higher degree of confidence about the system. That confidence could be especially important this year when many voters will be voting absentee for the first time, and questions are swirling about the security of mailed ballots.

By implementing a comprehensive ballot tracking system, Georgia can avoid problems such as those experienced in Wisconsin in their April 2020 primary. If Wisconsin election officials had had comprehensive secure ballot tracking in place during their recent primary, they would have seen that thousands of ballots got stuck in mail processing centers. This information would have given them the opportunity to contact USPS and address the problem before thousands of voters were denied the ability to safely vote at home even though they had requested their ballot in time.

Ballot tracking is cost-effective. For many states, depending on the number of voters and other implementation details, the software may cost around [\\$50,000](#) per year. Although it

⁸³ <https://www.democracy.works/ballot-scout/>

⁸⁴ <https://ballottrax.com/>

⁸⁵ California, Colorado, Delaware, Florida, Iowa, Maryland, New Hampshire, New Jersey, New Mexico, Virginia

would be most effective for the Secretary of State to enact statewide tracking, if they do not then local officials could step in. City or county administrators can sign up for local service, likely at a cost of a few thousand dollars per year.⁸⁶

Example Legislative Language:

California Election Code [§ 3017 \(c\)](#). **Vote by Mail Application and Voting Procedures.**⁸⁷

The elections official shall establish procedures to track and confirm the receipt of voted Vote By Mail ballots and to make this information available by means of online access using the county's elections division Internet Web site.

Fla. Stat. [§ 101.62\(1\)\(c\)](#). **Request for Vote by Mail ballots.**⁸⁸

Upon receiving a request for a Vote By Mail ballot from an absent voter, the supervisor of elections shall notify the voter of the free access system that has been designated by the department for determining the status of his or her Vote By Mail ballot.

N.H. Rev. Stat. [§ 657:26](#). **Absentee Voter Website.**⁸⁹

The secretary of state shall make available a public website by which an absentee voter, in every state election, may determine whether the voter's absentee ballot request has been received by the clerk, whether the absentee ballot has been sent pursuant to such request, whether the envelope purporting to contain the absentee ballot has been received by the clerk, and whether the absentee ballot was challenged and rejected by the moderator on election day, including the reason for the challenge.

⁸⁶ Pasco County, Texas pays \$4,000 per year for Ballot Scout, and Milwaukie, Wisconsin could pay \$7,500 per year. <https://www.fastcompany.com/90501588/track-your-ballot-like-a-package-how-technology-will-smooth-the-way-for-novembers-mail-in-ballot-surge>

10. Mail absentee applications to every registered voter.

Mailing absentee application forms to every registered voter in Georgia will increase absentee voting, reducing crowds on election day that could spread COVID-19. Several counties in Wisconsin mailed out absentee ballot application forms in advance of the April 2020 primary to great success: 67 percent voted⁹³ (a high turnout for a primary) and 90 percent of those voted absentee, leaving polling places uncrowded for the few voters who came in-person.⁹⁴ In the absence of leadership at the state level, counties officials could individually choose to mail out application forms to voters in their jurisdiction, but it would be more effective as a coordinated statewide effort.

In addition to boosting absentee voting rates, mailing out application forms can provide two more benefits: the signed form will provide clerks with a recent voter signature to use

⁹⁰ <https://www.techandciviclelife.org/vote-at-home/>

⁹³ <http://www.wfbvillage.org/DocumentCenter/View/1091/April-2020---Election-Results>

⁹⁴ <https://www.motherjones.com/politics/2020/04/whitefish-bay-coronavirus/>

when verifying the ballot (See Recommendation 3), and it will help clerks update voter addresses so that more ballots will reach voters in November. To give enough time for undeliverables to come back to the clerk's office and for them to follow up with those voters to find out their current mailing address, aim to mail out application forms at least two months in advance of the election. To get a higher level of uptake, pre-fill the forms with information on file about that voter (such as name and address). That way voters can review, update as needed, sign and return. Use plain language to ensure voters fill out the form correctly, saving clerks time (See Recommendation 2).

Georgia law allows the secretary of state (or individual clerks) to choose whether to send applications to voters. The county will have to pay to print the and mail the application forms which should cost less than \$2.00 per voter,⁹⁵ and will also pay for the labor of processing the forms. Because Georgia requires voters to fill out a form again for every election, you will need to pay to mail and process forms again in August and November. To save the substantial cost on local clerks of mailing and processing absentee application forms each time, the legislature could allow a "single sign-up" option so that voters who want to continue voting absentee can do so without further paperwork (See Recommendation 12).

For Lawmakers

11. Account for voters with non-traditional addresses.

Native American voters living on tribal lands often have non-USPS-standard mailing addresses, making it difficult for them to register to vote and receive ballots in the mail. They may have many family members living at the same address, and some states may not allow them all to receive a ballot. Or they may use a USPS box to receive mail, but live far from the nearest USPS office or election center, making it more difficult to receive and return their ballot in a timely fashion.⁹⁷ Eligible voters experiencing homelessness or housing insecurity may also not have a home address. Your state should make sure these voters can receive a ballot and securely vote.

Georgia should allow multiple eligible voters to use the same mailing address. Living with others to save on housing costs should not diminish any American's right to vote. Your state can allow native people to [designate a building on the Nation's land to receive their ballot](#). Especially in areas where people live far from a USPS office, you can temporarily install drop boxes or vote centers on tribal lands to ensure that voters have viable options for returning their ballots.

You can allow homeless community members to receive their ballots at a [shelter, park, motorhome](#), or other identifiable location. Alternatively, they can list the county elections office as their mailing address and pick up their ballots in person there. They can return their ballot to the elections office or a secure drop box.

Example Legislative Language:

Colorado Revised Statutes [1-2-102](#). Rules for determining residence.⁹⁸

For voter registration residence, voters can identify a location in the county that they return to regularly, such as a shelter, services provider, park, campground, vacant lot, business address, or other physical location. If the registration residence does not have a mailing address, voters must also provide a mailing address.

⁹⁷ <https://www.theguardian.com/commentisfree/2020/may/22/mail-in-voting-native-americans-election>

⁹⁸ https://www.sos.state.co.us/pubs/info_center/laws/Title1/Title1Article2.html

Oregon Revised Statutes [247.038](#). Registration of person who is homeless or resides in identifiable location.⁹⁹

Individuals who are homeless or reside in shelters, vehicles, marinas or other identifiable locations cannot be denied the opportunity to register to vote. Residence addresses can be descriptions of the physical location of the person or the office of the county clerk.

Revised Codes of Washington [29A.08.112](#). Voters without traditional residential addresses.¹⁰⁰

Voter registration accepts non-traditional addresses, defined as narrative descriptions of the voter's physical location. No person can be disqualified for lacking a traditional address. Voters must provide a mailing address. Tribes may designate a government building to serve as a mailing address for residents.

Example Guidance Language:

- Oregon [Vote By Mail Procedures Manual](#) and [Oregon Secretary of State](#).¹⁰¹
- Colorado Secretary of State [FAQs](#) and [Election Rules](#).¹⁰²
- Washington State Clearinghouse Notification on [Voters Without Traditional Addresses](#).¹⁰³

12. Give voters a "single sign-up" option.

Twelve states plus DC give voters a "single sign-up" option whereby they can apply once to vote absentee and permanently continue receiving ballots in the mail unless they are removed from the permanent absentee voter list. These include the five states that conduct all elections by mail, plus Arizona, California, DC, Michigan, Montana, Nevada,

⁹⁹ https://www.oregonlegislature.gov/bills_laws/ors/ors247.html

¹⁰⁰ <https://apps.leg.wa.gov/rcw/default.aspx?cite=29A.08.112>

¹⁰¹ https://sos.oregon.gov/elections/Documents/vbm_manual.pdf#page=19 and <https://sos.oregon.gov/voting/Pages/homeless-confidential.aspx>

¹⁰² <https://www.sos.state.co.us/pubs/elections/FAQs/foreclosureHomelessFAQ.html> and https://www.sos.state.co.us/pubs/rule_making/CurrentRules/8CCR1505-1/Rule2.pdf#page=3

¹⁰³ <https://www.sos.wa.gov/assets/elections/auditorsctp/19-04%20voters%20without%20traditional%20addresses.pdf>

New Jersey, Pennsylvania, and DC. Another six states¹⁰⁴ maintain a permanent absentee voter list for certain voters, usually those who are elderly and/or disabled.¹⁰⁵

However, thirty-two states, including yours, require all voters to apply for an absentee ballot every election, or every two years. But nearly [half or even two-thirds of absentee ballot applicants](#) also applied to vote absentee in the last major election cycle. Even if voters know they want to keep getting their ballot in the mail, they have to fill out paperwork again and again. Not only is this a burden for the voter, it's a drain on election officials who must process and enter application data every year. Minimizing paperwork by giving voters the option to sign up for a permanent absentee list could cut costs and save time.

The potential savings are significant. According to a [US Government Accountability Office report](#), in the 2008 presidential election, Contra Costa County in California spent \$1.37 per ballot to process permanent absentee ballots versus \$10.64 per ballot to process each nonpermanent absentee ballot. Much of the nearly eight-fold administrative cost increase came from handling individual ballot requests.

More than 1 million Georgian voters requested absentee ballots for the June 9th primary. Most or all of those voters may wish to vote absentee again in November, but they will all have to apply again. If the state legislature acts quickly, it could create a single-signup option in 2020 and authorize election officials to send a postcard to any voter who already requested an absentee ballot this year asking if they want to opt-in to continue receiving ballots by mail. This would save resources for clerks and voters during this busy year.

Example Legislative Language:

Arizona [16-544](#). Permanent early voting list; civil penalty; violation; classification.¹⁰⁶

Voters can request permanent absentee ballots to in state addresses in writing or through an online portal. Notices are sent before elections to allow voters to change addresses or opt out of absentee voting. If the notice is undeliverable, the voter is moved off the permanent absentee list.

¹⁰⁴ Kansas, Massachusetts, Missouri, New York, West Virginia and Wisconsin

¹⁰⁵ <https://www.ncsl.org/research/elections-and-campaigns/absentee-and-early-voting.aspx>

¹⁰⁶ <https://www.azleg.gov/ars/16/00544.htm>

California Elections Code [3206](#). Permanent Vote by Mail Application and Procedures.¹⁰⁷

In counties that are not fully VBM, voters may request to be on the permanent Vote By Mail list. Voters can apply online. Permanent status ends if the voter does not vote in four consecutive state-wide general elections.

Montana Code [13-13-212](#). Application for absentee ballot -- special provisions -- absentee ballot list for subsequent elections.¹⁰⁸

Voters can request permanent absentee ballots. They will be mailed ballots for subsequent elections as long as they have not filed a change of address with USPS. If they have, they are sent a form to request an address update.

New Jersey Statutes Annotated [19:63-3\(a\)\(1\)](#) Procedure for user of mail-in ballot.¹⁰⁹

Voters may choose to receive mail in ballots for all future elections. Voters can request in writing if they wish to no longer receive mail in ballots.

Nevada Revised Statutes § [293.3165\(1\)](#) Specialized procedure to request absent ballot for all elections at which registered voter is eligible to vote; requirements for issuing, voting and returning such absent ballot.¹¹⁰

Nevada allows all voters to receive absentee ballots for all future elections. If the ballot is undeliverable or the voter has had their registration cancelled under [NRS 293.530](#).¹¹¹

¹¹²

https://azsos.gov/sites/default/files/2019_ELECTIONS_PROCEDURES_MANUAL_APPROVED.pdf#page=63

13. Allow counties to accept ballots postmarked by Election Day.

In 2018, 3.1 percent of mailed-out ballots in Georgia were rejected. But, of those that were rejected, almost 47% percent were rejected due to late receipt. That is more than 3,500 Georgia voters whose votes weren't counted. More Georgians are likely to want to vote absentee this year, and a similar rejection rate for ballots received after election day could disenfranchise even more voters.

Thirteen states¹¹³ accept ballots postmarked by election day and received within a certain period afterwards, usually around 10 days. This gives absentee voters the same freedom as in-person voters to mark their ballot and turn it in on election day. It also avoids confusion because voters don't have to guess how many days it could take the Postal Service to deliver their ballot; they know their deadline is election day. Allowing clerks to count ballots received or postmarked on election day and received within 10 days increases voter engagement and makes elections more representative of the people.

If you are not able to accept ballots received after election day, make this very clear to voters. In the ballot materials, tell voters not to put their ballot in the mail any later than the Wednesday before Election Day. And start running PSA's a few days before that to remind voters of the practical cut-off date, and that if they miss the deadline to drop it in the mail, they may drop it in a secure drop-box or at a voting center up until election day (See Recommendations 4 and 5).

Example Legislative Language:

Alaska Statutes § [15.20.081\(e\)](#). Absentee voting in general; applying for absentee ballot by mail or electronic transmission.¹¹⁴

Ballots must be postmarked by election day and received by the close of business on the 10th day after the election.

¹¹³ Alabama, Alaska, California, Illinois, Kansas, Maryland, New Jersey, New York, North Carolina, North Dakota, Texas, Washington, and West Virginia

¹¹⁴ <http://www.akleg.gov/basis/statutes.asp#15.20.081>

Illinois Compiled Statutes [10 § 5/19-8\(c\)](#). Time and place of counting ballots.¹¹⁵ ICS [10 § 5/18A-15](#). Validating and counting provisional ballots.¹¹⁶

Ballots must be postmarked by election day. Ballots received after election day without postmark shall be accepted if the certification date is on or before election day. Ballots must be received by 14 days after the election.

Kansas Statutes [25-1132](#). Advance voting; delivery of ballots; where; deadline for receiving ballots.¹¹⁷

Absentee ballots can be received after polls close as long as they were postmarked before or on election day and are received by 3 days after the election. This second standard is not recommended as USPS first class standard used to be 1-3 days, but is now 2-5 days.

Nevada Revised Statutes § [293.317\(1\)\(b\), \(2\)](#). Procedure for timely returning absent ballot; treatment of absent ballot when postmark cannot be determined.¹¹⁸ NRS [293.333\(2\)](#) Procedure for depositing absent ballots in ballot box; period for counting of absent ballots.¹¹⁹

Ballots must be postmarked on or before the date of the election and received by 7 days after the election. If postmark is illegible but ballot is received within 3 days of election, it is considered valid.

North Carolina General Statutes [163-231](#). Voting absentee ballots and transmitting them to the county board of elections.¹²⁰

Absentee ballots can be received after polls close as long as they were postmarked before or on election day and are received by 3 days after the election. This second standard is not recommended as USPS first class standard used to be 1-3 days, but is now 2-5 days.

Example Guidance Language:

¹²¹ <http://www.akleg.gov/basis/aac.asp#6.25.560>

14. Allow voters to request absentee ballots online.

Thirty-nine states and DC give voters the option to securely register to vote online.¹²² Twenty-three states allow voters to request absentee ballots online. An additional eleven states allow voters to send in their absentee ballot request via email, though some of these may still create a barrier for voters without access to a printer because they require voters to print the form, physically sign it, then scan it and attach to an email. Allowing voters to request absentee ballots digitally makes the entire process easier for everyone, especially during times of restricted mobility, like coronavirus shutdowns. For the voters, it increases their access to absentee options. And for the county clerks and state officials, it reduces the amount of paperwork involved and the amount of time spent on inputting data from physical requests into elections software systems.

Georgia's Secretary of State could provide a user-friendly, state-wide web portal where voters can request to receive a ballot in the mail, register to vote, update their address, track their ballot, cure signatures, and request replacement ballots.

Creating a secure online request system does require some upfront investment in digital infrastructure. For example, see Texas's online request form [here](#), or Idaho's online request form [here](#). You will need to integrate this new interface into your existing elections software.

Example Legislative Language:

Florida 2019 Statutes [101.62](#). Request for Vote By Mail ballots.¹²³

Supervisors of elections must inform voters requesting Vote By Mail ballots that there is a free access system to determine the ballot status.

Code of Virginia § [24.2-711.1](#). Absentee ballots; confirmation of receipt; notice of reason for rejection.¹²⁴

The Secretary of State must implement a free-access system for voters to track absentee applications and ballots.

¹²² <https://www.ncsl.org/research/elections-and-campaigns/electronic-or-online-voter-registration.aspx#a>

¹²³ http://www.leg.state.fl.us/statutes/index.cfm?App_mode=Display_Statute&URL=0100-0199/0101/Sections/0101.62.html

Example Guidance Language:

- [Oregon Procedures Manual 2020](#).¹²⁵
- Alaska Instructions for [Online Ballot Delivery](#).¹²⁶
- Minnesota [Absentee Voting Administration Guide](#), pg 30.¹²⁷

15. Allow community organizations to collect and deliver sealed ballots.

Twenty states allow anyone to deliver another voter's sealed and signed ballot. By allowing community organizations to help deliver completed and signed ballots, Georgia can increase voter turnout and help further enfranchise voters who face difficulty voting. For example, this policy can help voters who may lack access to a vehicle or who do not have access to consistent mail service.¹²⁸

Ballot tracking and robust signature verification can prevent would-be ballot harvesters from collecting blank ballots and filling them in. Fraudsters can't access voters' signature files, and voters will notice if the tracking system reports their ballot as both delivered and returned, but they never received it.

Example Legislative Language:

Oregon Revised Statutes 254.470 (6)(d). Procedures for conducting election by mail.¹²⁹

Allows anyone to deliver a completed and sealed ballot, as long as they do so within 2 days of receiving the ballot from the voter.
